

CERTIFICATE

This is to certify that

**The Exertus Fortes Exposure container
And Link-Type Source Assembly
Have Been Assessed Against**

ISO 3999: 2004
Apparatus for Industrial Gamma Radiography – Specifications
for Performance, Design and Tests

and

SSR-6 (2018)
IAEA Regulations for the Safe Transport of Radioactive
Material

Full scale testing and engineering analysis has demonstrated that this
Exposure Container and Link-Type Source Assembly meet the
performance requirements of the standards, when used in accordance
with

WI/GSA/LOG-007.01.006.001
Exertus Fortes Operation Manual
